RRB Clerk Mains 2020 Memory Based Paper – English Version**Reasoning Ability**

Directions (1-4): Study the following information carefully and answer the below questions.

In a certain code language,

‘Agriculture is occupation national income’ means ‘zt lt pz sh vm’.

‘National income depends Agriculture’ means ‘sh zt rq vm’.

‘Economy depends Agriculture production’ means ‘rq tw zt ad’.

‘Production is government source’ means ‘tw ts kg lt’.

1) What does the code ‘kg’ represent in the given code language?

- a) Government
- b) Source
- c) is
- d) Production
- e) Either a or b

2) What is the code for the phrase ‘Agriculture Production’ in the given code language?

- a) zt tw
- b) rq ad
- c) zt rq
- d) tw ad
- e) None of the above

3) If ‘National economy’ means ‘ad sh’, then what does the phrase ‘Income is depends’ represent in the given code language?

- a) tw zt ts

- b) sh lt zt
- c) vm lt rq
- d) pz vm zt
- e) None of the above

4) What is the code for the word ‘Economy’ in the given code language?

- a) ts
- b) tw
- c) zt
- d) rq
- e) ad

Directions (5-7): Study the following information carefully and answer the below questions

A family consists of eight members with three generations and two married couples. D is the brother-in-law of A, who does not have any siblings. Both D and J are siblings. J has only one sister. G is the mother-in-law of J’s brother-in-law. B has three children. M is the only daughter of K. H is the father-in-law of M’s mother. Only one child of B is married. J’s gender is the same as H.

5) How B is related to J?

- a) Sister
- b) Mother-in-law
- c) Father-in-law
- d) Mother
- e) Father

6) How D is related to M?

RRB Clerk Mains 2020 Memory Based Paper – English Version

- a) Uncle
- b) Aunt
- c) Brother
- d) Father
- e) Can't be determined.

7) If P is the child of A, then how P is related to D?

- a) Daughter
- b) Son
- c) Nephew
- d) Niece
- e) Can't be determined

Directions (8-10): Study the following information carefully and answer the below questions

Point Z is 28m to the north of point K. Point M is 15m to the north of point X. Point F is exactly in the middle of points M and N, which is 30m to the east of point M. Point C is 13m to the north of point F. Point Z is 11m to the west of point C. If Mr. X walks from point A for 22m towards the west direction to reach point P, then takes a left turn and walks for 6m to reach point L. From point L, he takes a right turn and walks for 4m to reach point Z.

8) What is the distance between the points X and K?

- a) 4m
- b) 5m
- c) 15m
- d) 13m
- e) None of the above

9) Four of the following five are alike in a certain way and hence form a group. Which of the following one does not belong to that group?

- a) ZF
- b) CN
- c) MK
- d) ZN
- e) AX

10) What is the distance and direction of A with respect to N?

- a) 20m towards north
- b) 19m towards south
- c) 19m towards north
- d) 28m towards south
- e) 25m towards north

11) Which of the following expressions is true, if the expression $T > G \geq K > M$; $P < A < M$; $S \leq Q < P$ is definitely true?

- a) $K < Q$
- b) $M \geq Q$
- c) $T < P$
- d) $G > S$
- e) $S \geq T$

12) Which of the following symbols should be placed in the blank spaces respectively (in the same order from left to right) in order to complete the given expression in such a manner that both " $I > K$ " and " $Q \leq M$ " definitely holds true?

$G > I \geq M _ W > U; K = N < S < Q _ W$

- a) =, ≤
- b) ≥, ≤

RRB Clerk Mains 2020 Memory Based Paper – English Version

- c) >, <
- d) Either b or c
- e) Either a or b

13) If the consonants of the word "GOLDFINCH" are changed to the immediate next letter in the alphabet series and the vowels are changed to the immediate previous letter in the alphabetical series, then how many letters are repeated?

- a) More than three
- b) Three
- c) None
- d) Two
- e) One

14) How many such pairs of digits are there in the number "856931724" each of which has as many digits between them in the number as there are in the number series (both backward and forward)?

- a) Six
- b) Five
- c) Four
- d) More than Six
- e) Three

15) If the third letters from the left end of all the words are taken and form a four letter meaningful word, then which of the following will not form a meaningful word?

- a) Silver, Future, Rachel, Cousin
- b) Purple, Twelve, People, Enough
- c) Godard, Donate, Pirate, Pepper
- d) Orange, Ninety, Sister, Sydney

- e) Animal, Energy, Legend, Savage

Directions (16-20): Study the following information carefully and answer the questions given below:

Eleven boxes are kept one above the other in eleven different shelves such that the lowermost shelf is numbered as 1, the shelf immediately above is numbered as 2 and so on till the topmost shelf is numbered as 11.

Only three boxes are kept between the boxes R and S. Box T is kept immediately above box S. Only one box is kept between the boxes S and G. Box G is kept above box S. Only two boxes are kept between the boxes H and R. Box S is kept adjacent to box B. Boxes W and P are kept above box G. The number of boxes kept between the boxes W and P is the same as the number of boxes kept between the boxes S and B. The number of boxes kept above box H is the same as the number of boxes kept below box N. The number of boxes kept between the boxes W and J is the same as the number of boxes kept between the boxes T and F. Box F is kept below box T.

16) Which of the following box is kept two boxes above box P?

- a) The box which is kept at eighth position
- b) Box N
- c) Box S
- d) The box which is kept immediately above box W
- e) None of these

RRB Clerk Mains 2020 Memory Based Paper – English Version

17) How many boxes are kept between box S and box R?

- a) Three
- b) As many boxes between box T and box F
- c) One
- d) More than three
- e) As many boxes below box N

18) How many boxes are kept above box J?

- a) As many boxes below B
- b) Three
- c) Six
- d) Four
- e) As many boxes between box R and box F

19) Four of the following five are alike in a certain way and hence form a group. Which of the following one doesn't belong to that group?

- a) HP
- b) WR
- c) FN
- d) JT
- e) RG

20) What is the position of box T from the top of the shelf?

- a) Sixth
- b) Second
- c) Third
- d) Seventh
- e) Fifth

Directions (21-25): Study the following information carefully and answer the questions given below:

Six persons - P, Q, R, S, T, and U are living in different floors of a six storey building, but not necessarily in the same order. The lowermost floor is numbered as one and the topmost floor is numbered as six. They belong to different cities.

S lives above floor number four. Only two persons are living between U and the one who belongs to Bangalore. The one who belongs to Bangalore lives below U. The number of floors above S is the same as the number of floors below the one who belongs to Jaipur. The one who belongs to Kochi lives two floors above T. P lives immediately above T. Neither P nor T belongs to Bangalore. The one who belongs to Chennai lives above the one who belongs to Hyderabad. The one who belongs to Hyderabad does not live above Q. Neither Q nor S belongs to Mumbai.

21) Four of the following are alike a certain way and hence form a group. Who among the following does not belong to the group?

- a) Q
- b) The one who belongs to Kochi
- c) The one who lives immediately above P
- d) The one who lives immediately below T
- e) The one who belongs to Jaipur

22) Which of the following statement is/are true with respect to the final arrangement?

I. Q belongs to Chennai.

RRB Clerk Mains 2020 Memory Based Paper – English Version

II. Two persons are living between S and T.

III. T lives above U.

- a) Only I and II
- b) Only III
- c) All I, II, and III
- d) Only II
- e) None of these

23) Who among the following person belongs to Kochi?

- a) The one who lives immediately below T
- b) The one who lives on the fourth floor
- c) P
- d) T
- e) R

24) Which of the following combination is false with respect to the final arrangement?

- a) R-Bangalore
- b) Q-Chennai
- c) S-Hyderabad
- d) P-Jaipur
- e) U-Kochi

25) How many persons are living above P?

- a) As many persons below S
- b) Two
- c) Three
- d) As many persons between U and T
- e) None

Directions (26-30): Study the following information carefully and answer the questions given below:

Nine persons are sitting on the circular table such that four of them are facing towards the center and the remaining persons are facing away from the center.

A sits second to the right of Y, who is facing towards the center. Two persons are sitting between A and Q. C sits second to the right of Q but does not sit adjacent to A. Both the immediate neighbors of Q faces the opposite directions of Q i.e., if Q faces towards the center, then both the immediate neighbours of Q faces away from the center and vice versa. Two persons are sitting between Z and B where neither Z nor B sits adjacent to A. Both Z and B are facing the same direction. The immediate neighbors of Z face opposite directions i.e., if one person faces towards the center, then the other faces away from the center and vice versa. R faces the same direction as P but neither sits adjacent to B nor Z. P sits second to the left of X. The number of persons sitting between P and X is the same as the number of persons sitting between Z and P.

26) What is the position of A with respect to P?

- a) Immediate left
- b) Immediate right
- c) Second to the right
- d) Third to the right
- e) Second to the left

27) How many persons are sitting between C and R, when counted from the left of R?

- a) Three
- b) Four

RRB Clerk Mains 2020 Memory Based Paper – English Version

- c) Two
- d) One
- e) None

28) Four of the following five are alike in a certain way and hence form a group. Who among the following one doesn't belong to that group?

- a) PB
- b) RY
- c) ZQ
- d) CZ
- e) YB

29) Who among the following person sits second to the right of A?

- a) The one who sits to the immediate left of Z
- b) Y
- c) P
- d) The one who sits second to the left of Q
- e) B

30) Which of the following statement is/are false with respect to the final arrangement?

- I. Both C and Z are facing the same direction.
- II. P sits second to the right of X.
- III. The immediate neighbors of A are facing the same direction.

- a) Only I and III
- b) Only III
- c) Only I and II
- d) Only II
- e) None of the statement is false

Directions (31-35): Study the following information carefully and answer the questions given below:

Six persons - L, M, N, O, P and Q are born on different dates either 9 or 16 of different months - March, April, and May of the same year, but not necessarily in the same order. They like different colors.

P is born in the month having an even number of days. Only two persons are born between P and the one who likes Pink. The number of persons born before the one who likes Pink is the same as the number of persons born after L. The one who likes green is born on an odd numbered date. Neither P nor L likes Green. The one who likes orange is born immediately before the one who likes Green. The one who likes Red is born immediately before N, who does not like Orange color. The number of persons born between N and Q is the same as the number of persons born between Q and the one who likes Pink. M neither likes Pink nor Orange. Neither N nor L likes Yellow. One of the persons likes Blue.

31) Four of the following five are alike a certain way and hence form a group. Who among the following one does not belong to that group?

- a) L
- b) P
- c) The one who is born immediately before Q
- d) The one who likes Pink
- e) M

32) Which of the following statement is/are true with respect to the final arrangement?

RRB Clerk Mains 2020 Memory Based Paper – English Version

I. L is born on March 9.

II. Two persons are born between N and M.

III. O likes Pink.

- a) Only I and III
- b) Only III
- c) All I, II, and III
- d) Only II
- e) None of these

33) Who among the following person is born on 16th April?

- a) The one who is born immediately after N
- b) The one who is born immediately before M
- c) The one who likes Pink
- d) The one who likes Green
- e) L

34) In which of the following month and date does the one who likes blue was born on?

- a) May 16th
- b) April 9th
- c) April 16th
- d) March 16th
- e) None of the above

35) How many persons are born before the one who likes Yellow?

- a) Two
- b) As many persons born after the one who likes green
- c) Three
- d) As many persons born between L and O
- e) No one

Directions (36-40): Study the following information carefully and answer the questions given below:

Ten persons are studying in three departments - B.sc, BA, and B.com. Minimum three persons and maximum four persons are studying in each department.

Both A and K are studying in the same department. Both H and J are studying in different departments. J is studying with D but not studying in the B.sc department. H is neither studying in B.sc nor B.com. K is not studying with J. Both E and C are studying in the same department. Both D and F are studying in the same department. Neither E nor F is studying with K. Both E and J are studying in different departments. G is neither studying with H nor in the B.sc department. B is neither studying with E nor G.

36) Who among the following person does not study in the B.com department?

- a) C
- b) D
- c) J
- d) G
- e) F

37) Which of the following combination is true with respect to the final arrangement?

- a) A-BA
- b) C-B.com
- c) E-BA
- d) J-B.sc
- e) F-BA

RRB Clerk Mains 2020 Memory Based Paper – English Version

38) Which of the following statement is/are true with respect to the final arrangement?

- a) Both D and G are studying in the B.com department
- b) Four persons are studying in B.sc department
- c) Both A and B are studying in different departments
- d) J is studying in BA department
- e) None is true

39) Four of the following five are alike in a certain way and hence form a group. Which of the following one does not belong to that group?

a) BK

- b) HE
- c) DG
- d) JF
- e) KE

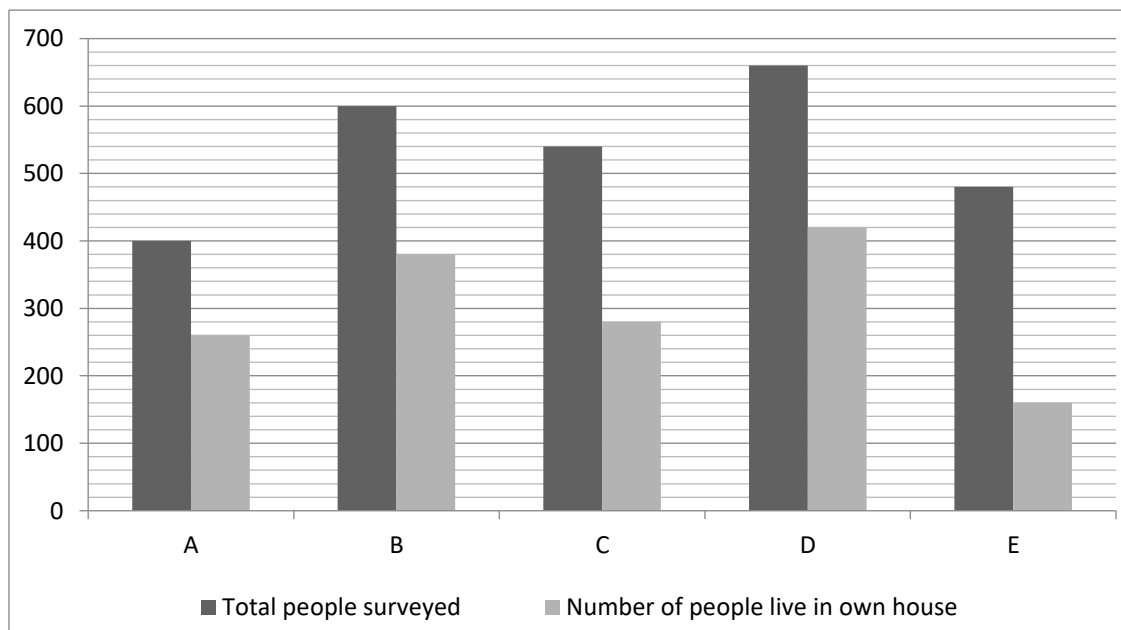

40) Who among the following person belongs to the BA department?

- a) C
- b) B
- c) F
- d) The one who is studying with J
- e) The one who is studying with A

Quantitative Aptitude

Directions (41-46): Study the following information carefully and answer the questions given below.

The given bar graph shows the total number of people surveyed in five cities A, B, C, D and E and the number of people who lived in their own houses.

RRB Clerk Mains 2020 Memory Based Paper – English Version

Note: Total people surveyed = Number of people live in their own house + Number of people live in the rent house

41) Ratio of the number of males and females in B is 8:7. If $\frac{2}{5}$ of the female live in a rent house, then find the percentage of males in B live in rent house out of the total surveyed people in B?

- a) 18%
- b) 20%
- c) 22%
- d) 27%
- e) 36%

42) Number of people who live in a rent house in D is how much percentage more than the numbers of people live in a rent house in A?

- a) 68.12%
- b) 71.42%
- c) 51.89%
- d) 42.76%
- e) 82.12%

43) People live in a rented house in A in which 15% people live in kuccha house and the remaining live in the pucca house. Find the difference between the number of people who live in their own house in A and the number of people who live in rent in pucca house in A?

- a) 141
- b) 94
- c) 125
- d) 137
- e) 152

44) People live in a rent house in F is equal to the sum of $\frac{2}{3}$ of people live in rent in D and $\frac{3}{8}$ of people live in rent in E. If the people live in their own house in F is 10% more than the people who live in rent in F, then find the number of people surveyed in F?

- a) 592
- b) 584
- c) 588
- d) 612
- e) 605

45) People live in that own house in C are living in flat and villa. The ratio of people live in flats and villa in C among the people live in their own house is 17:1 and the ratio of people live in villa and banglow in C among the people live their own house is 3:2, then find the number of people live in a villa in C among the people live in that own house?

- a) 12
- b) 10
- c) 18
- d) 15
- e) 22

46) Among people surveyed in B, 100 people live in municipal zone and the rest is live in the residential, commercial zone and industrial zone, the number of people who live in the residential zone is 60 more than the number of

RRB Clerk Mains 2020 Memory Based Paper – English Version

people who live in the commercial zone, then find the maximum possible number of people live in the residential zone? (Note: At least one person live in each zone)

- a) 219
- b) 279
- c) 281
- d) 288
- e) 198

Directions (47-52): Study the following information carefully and answer the questions given below.

Burger and pizza are sold by two companies A and B on Monday and Sunday. The number of burgers sold by A on Monday is 20% more than the number of pizzas sold by A on Monday. The number of burgers sold by A on Monday is equal to the number of burgers sold by B on Monday. The number of pizzas sold by B on Monday is half of the number of burgers sold by B on Monday.

Number of burgers sold by A on Sunday is equal to the number of pizzas sold by B on Sunday. Number of pizzas sold by A on Sunday is 40 more than the number of burgers sold by A on Sunday. Average number of pizzas sold by A and B on Monday is 120 and average number of pizzas sold by A and B on Sunday is 84.

47) Had the number of burgers sold by B on Sunday is 50% of the number of pizzas sold by B on Sunday, then find the ratio of the number of

burgers sold by B on Monday and that of Sunday?

- a) 45:8
- b) 40:7
- c) 23:4
- d) 11:2
- e) None of these

48) Number of burgers sold by A on Sunday is what % of the number of pizzas sold by A on Monday?

- a) 33.33%
- b) 42.67%
- c) 38.18%
- d) 47.19%
- e) 55.55%

49) Number of veg burgers sold by A on Sunday is 40% of the number of veg burgers sold by A on Monday. If the number of non-veg burgers sold by A on Sunday is 28 more than the number of veg burgers sold A on Sunday, then find the number of veg burgers sold by A on Monday and Sunday together?

- a) 58
- b) 61
- c) 63
- d) 53
- e) None of these

50) Find the sum of burgers and pizzas sold by A on Monday?

- a) 360
- b) 272
- c) 276

RRB Clerk Mains 2020 Memory Based Paper – English Version

- d) 330
e) None of these

51) Find the difference between the number of pizzas sold by A on Monday and the number of pizzas sold by B on Monday?

- a) 60
b) 80
c) 45
d) 55
e) 50

52) Based on the given data which of the following is true?

- a) Number of burgers sold by A on Sunday is 80% of the number of pizzas sold by A on Sunday.
b) Number of burgers sold by B on Monday is equal to the number of pizzas sold by B on Sunday
c) Sum of the number of burgers sold by A and B on Monday is equal to 360
d) Number of pizzas sold by B on Sunday is 6 more than the number of burgers sold by B on Monday
e) None of these

Directions (53-58): Study the following information carefully and answer the questions given below.

The given table shows the sum of the number of males and females and the ratio of the number of males to females in five different buildings in January.

Building	Sum of number of male and female	Male: Female
A	80	5:3
B	110	15:7
C	120	11:13
D	100	3:2
E	105	11:10

53) Find the average number of females in building B, C and E?

- a) 60
b) 40
c) 30
d) 50
e) 35

54) In February, 20% of the male of building C is left and no new person comes to live in building C. If the ratio of male and female in February in C is 4:5, then find the number of the female left in C in February?

- a) 10
b) 20
c) 15
d) 25
e) None of these

55) There is another building F in which the number of people who live is 20% more than the number of people lives in building A. In F, there are 10 flats in which 2 people live in each flat, 10

RRB Clerk Mains 2020 Memory Based Paper – English Version

flats in which 3 people live in each flat, 5 flats in which 4 people live in each flat and the remaining flat there is one person live in each flat. Find the number of flat in building F?

- a) 51
- b) 48
- c) 96
- d) 68
- e) 75

56) Number of females in D is what percent more or less than the number of female in E?

- a) 10%
- b) 20%
- c) 15%
- d) 25%
- e) 30%

57) Ratio of the number of people who live in E and G is 21:24 and the number of males in G is $\frac{2}{3}$ of the number of females in G, then find the number of males in G?

- a) 45
- b) 48
- c) 52
- d) 56
- e) 60

58) Number of males in February in A is equal to the average number of males in January in B and C and the number of females in February in A is 5 more than the number of males in February in that building. Find the total of number of people in February in A?

- a) 130
- b) 140
- c) 135
- d) 145
- e) 150

59) Ram has a watch whose cost price is Rs.900, he marked his watch at certain price and give a certain discount. If the profit % and the discount % of the watch is equal and the marked price of the watch is Rs.1100, then find the profit of the watch?

- a) 90
- b) 110
- c) 130
- d) 100
- e) 80

60) Navya spends one-fourth of her salary on EMI and $\frac{2}{5}$ of the remaining on monthly bills and the rest is divided between her mother and father in the ratio of 3:2. If the difference between the EMI and the amount of mother is Rs.840, then find the salary of the Navya?

- a) Rs.40000
- b) Rs.50000
- c) Rs.42000
- d) Rs.45000
- e) Rs.48000

61) A, B and C started the business, the investment of B is twice the investment of A and investment of C is equal to the sum of investment of A and B, the investment time of B

RRB Clerk Mains 2020 Memory Based Paper – English Version

is twice of the investment time of A, the investment time of C is 6 month less than the investment time of B. If the profit of the ratio of B and C is 8:3, then find for how many months did A invest?

- a) 3
- b) 4
- c) 5
- d) 6
- e) Cannot be determined

62) Age of A 6 years ago is equal of B 18 years ago. Age of A 18 years ago is equal to the present age of C. If D is 8 years older than C, then find how much B is older or younger than D?

- a) 22 years elder
- b) 22 years younger
- c) 18 years older
- d) 18 years younger
- e) Cannot be determine

63) Rounak invested in two schemes. Scheme A (gives 10% per annum at simple interest) and scheme B (gives 10% per annum compound interest). In Scheme B Rounak invested Rs.500 more than that of in scheme A. After 2 years, amount received from scheme B is Rs.620 more than the amount received from scheme A, then find the sum Rounak invested in scheme B?

- a) 1500
- b) 2000
- c) 3000
- d) 2500

e) None of these

64) Length of floor is 3 feet more than breadth of floor. Even after length is increased by 3 feet and breadth is reduced by 2 feet, area becomes unchanged. Find the area of the floor?

- a) 150
- b) 172
- c) 220
- d) 180
- e) 160

65) A, B and C is a positive number in which $A = B^2/C$. If B is 20% increased and C is 60% increased, then which of the following option is true?

- a) A is unchanged
- b) A is 10% increased
- c) A is 10% decreased
- d) A is 15% increased
- e) Cannot be determine

66) There are three Jars A, B and C of the same capacity. A is filled with half of its capacity, B is filled with $1/3$ of its capacity and C is empty. If the liquid from A and B is divided between A, B and C equally, then find the portion of Jar C is filled?

- a) $1/6$
- b) $5/16$
- c) $2/9$
- d) $5/6$
- e) $5/18$

67) Difference between the unit place and tens place of a two digit number is 5. If the number is multiplied by 4 and decreased by 3 its digit is interchanged, find the two digit number?

- a) 16
- b) 61
- c) 49
- d) 27
- e) 38

68) For a construction of a 12 km road project there are 100 number of workers, the project should be completed in 15 days. 100 workers started the work and after 9 days there is only 5 km of the project is completed. Find the number of workers required to complete the project on time?

- a) 210
- b) 190
- c) 90
- d) 110
- e) None of these

69) Ani and Bindu sold a Radio both marked the same price on the Radio. Ani gives a successive discount of 20% and 16% and Bindu gives a successive discount of 30% and 6%. Which of the following is true?

- a) Ani makes profit of 32.8%
- b) Bindu offers better discount than Ani
- c) Selling price of Radio by Ani is equal to the selling price of Radio by Bindu
- d) Bindu makes a loss
- e) Ani offers better discount than Bindu

Directions (70-75): What approximate value should come in the place of (?) in the following questions.

70) $14.998 * 6.02 * ? = 1979$

- a) 22
- b) 25
- c) 28
- d) 33
- e) 18

71) $\sqrt{?} * 8.01 + 4.99\% \text{ of } 239 = 52$

- a) 20
- b) 25
- c) 30
- d) 35
- e) 40

72) $144.031 + 1449.01 + 39.06 = ?$

- a) 1620
- b) 1626
- c) 1632
- d) 1645
- e) 1651

73) $(80\% \text{ of } 501 - 40.09)/6.01 = ?$

- a) 40
- b) 45
- c) 50
- d) 55
- e) 60

74) $(41.99 + 98.05)/(12.01 - 4.99) = ?$

- a) 15

RRB Clerk Mains 2020 Memory Based Paper – English Version

- b) 20
- c) 25
- d) 30
- e) 40

75) $448/3 + 11.99 * 4.01 = ?$

- a) 197
- b) 203
- c) 188
- d) 217
- e) 192

Directions (76-80): Find out the wrong number in the following number series.

76) 1000, 992, 965, 901, 776, 556, 217

- a) 217
- b) 556
- c) 901
- d) 992
- e) 776

77) 56, 70, 50, 64, 44, 60, 38

- a) 60
- b) 38
- c) 70

- d) 64
- e) 50

78) 5, 16, 29, 46, 63, 88, 117

- a) 29
- b) 117
- c) 63
- d) 46
- e) 88

79) 10, 6, 3.5, 5, 16, 120, 1904

- a) 6
- b) 1904
- c) 16
- d) 5
- e) 120

80) 6, 17, 49, 149, 446, 1337, 4010

- a) 149
- b) 1337
- c) 49
- d) 4010
- e) 446

RRB Clerk Mains 2020 Memory Based Paper – English Version

7) Answer: C

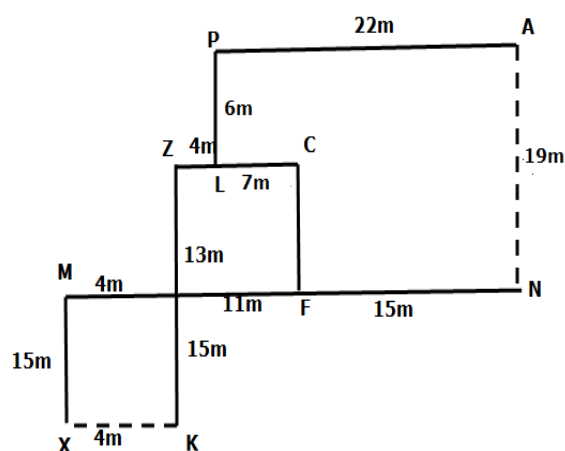

Directions (8-10):

8) Answer: A

9) Answer: E

10) Answer: C

11) Answer: D

$T > G \geq K > M > A > P > Q \geq S$

12) Answer: E

$G > I \geq M = W \geq Q > S > N = K$

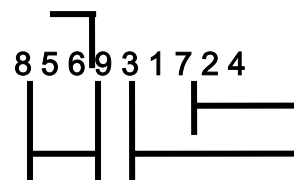

$G > I \geq M \geq W \geq Q > S > N = K$

13) Answer: E

GOLDFINCH

HNMEGHODI

14) Answer: B

15) Answer: C

a) Silver, Future, Rachel, Cousin → LTCU → CULT

b) Purple, Twelve, People, Enough → REOO → OREO

c) Godard, Donate, Pirate, Pepper → DNRP

d) Orange, Ninety, Sister, Sydney → ANSD → SAND

e) Animal, Energy, Legend, Savage → IEGV → GIVE

Directions (16-20):

16) Answer: D

17) Answer: A

18) Answer: D

19) Answer: C

20) Answer: D

Final Arrangement:

RRB Clerk Mains 2020 Memory Based Paper – English Version

11	H
10	W
9	P
8	R
7	J
6	G
5	T
4	S
3	B
2	F
1	N

We have,

- Only three boxes are kept between the boxes R and S.
- Box T is kept immediately above box S.
- Only one box is kept between the boxes S and G.
- Box G is kept above box S.

From the above condition, there are two possibilities.

	Case-2
	G
Case-1	T
R	S
G	
T	
S	R

Again we have,

- Only two boxes are kept between the boxes H and R.
- Box S is kept adjacent to box B.

Final Arrangement

Floors	Person	City
6	Q	Chennai
5	S	Hyderabad
4	U	Kochi
3	P	Mumbai
2	T	Jaipur
1	R	Bangalore

We have,

- S lives above floor number four.

RRB Clerk Mains 2020 Memory Based Paper – English Version

- Only two persons are living between U and the one who belongs to Bangalore.
- The one who belongs to Bangalore lives below U.

From the above condition, there are four possibilities.

	Case1		Case2		Case1a		Case2a	
	Person	City	Person	City	Person	City	Person	City
6	U		S				S	
5	S		U		S			
4					U		U	
3		Bangalore						
2				Bangalore				
1						Bangalore		Bangalore

Again we have,

- The number of floors above S is the same as the number of floors below the one who belongs to Jaipur.

From the above condition, case 2a gets eliminated.

	Case1		Case2		Case1a		Case2a	
	Person	City	Person	City	Person	City	Person	City
6	U		S				S	
5	S		U		S			
4					U		U	
3		Bangalore						
2		Jaipur		Bangalore		Jaipur		
1				Jaipur		Bangalore		Bangalore

Again we have,

- The one who belongs to Kochi lives two floors above T.
- P lives immediately above T.
- Neither P nor T belongs to Bangalore.

From the above condition, case 1 gets eliminated.

	Case1		Case2		Case1a	
	Person	City	Person	City	Person	City
6	U		S			
5	S		U	Kochi	S	
4			P		U	Kochi
3		Bangalore	T		P	
2		Jaipur		Bangalore	T	Jaipur
1				Jaipur		Bangalore

Again we have,

- The one who belongs to Chennai lives above the one who belongs to Hyderabad.
- The one who belongs to Hyderabad does not live above Q.
- Neither Q nor S belongs to Mumbai.

From the above condition, case 2 gets eliminated. case 1a shows the final arrangement.

	Case2		Case1a	
	Person	City	Person	City
6	S		Q	Chennai
5	U	Kochi	S	Hyderabad
4	P		U	Kochi
3	T		P	Mumbai
2		Bangalore	T	Jaipur
1		Jaipur	R	Bangalore

Directions (26-30):

26) Answer: D

27) Answer: B

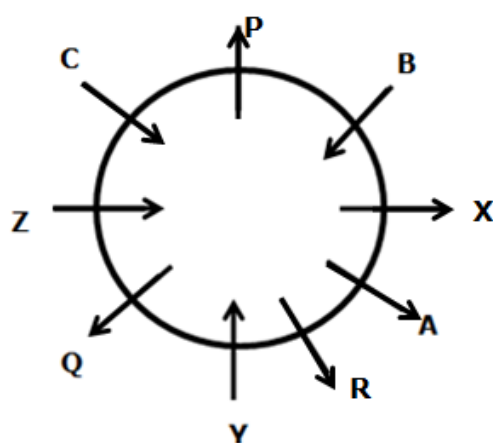

28) Answer: E

29) Answer: B

RRB Clerk Mains 2020 Memory Based Paper – English Version

30) Answer: D

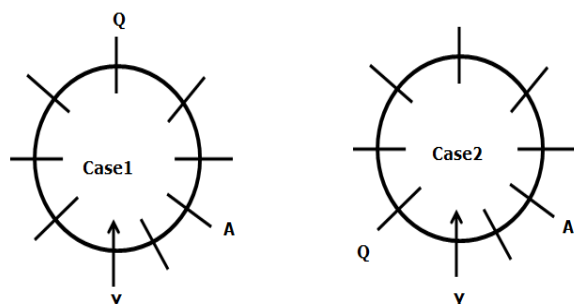

Final Arrangement

We have,

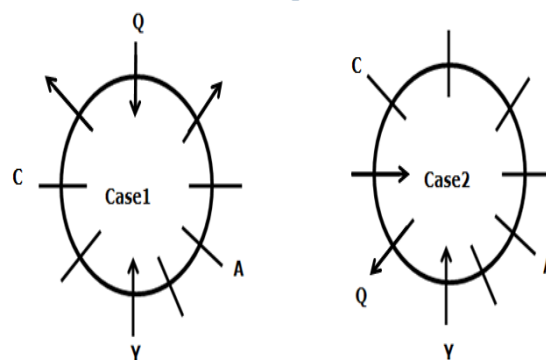

- A sits second to the right of Y, who is facing towards the center.
- Two persons are sitting between A and Q.

From the above condition, there are two possibilities.

Again we have,

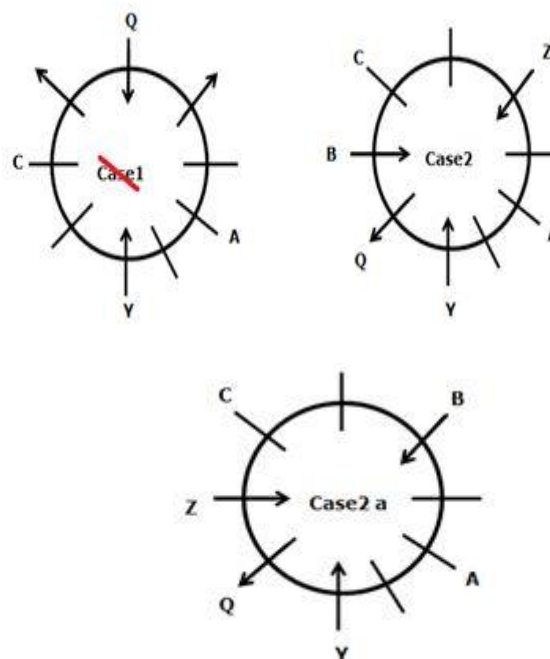

- C sits second to the right of Q but does not sit adjacent to A.
- Both the immediate neighbors of Q faces the opposite directions of Q i.e., if Q faces towards the center, then both the immediate neighbours of Q faces away from the center and vice versa.

Again we have,

- Two persons are sitting between Z and B where neither Z nor B sits adjacent to A.
- Both Z and B are facing the same direction.

From the above condition, case1 gets eliminated. case2 has one more possibility.

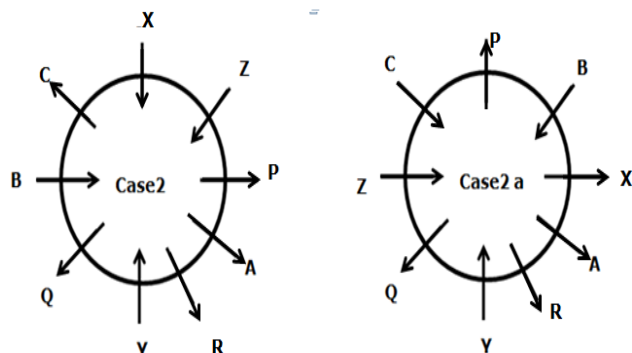

Again we have,

- The immediate neighbors of Z face opposite directions i.e., if one person faces towards the center, then the other faces away from the center and vice versa.

RRB Clerk Mains 2020 Memory Based Paper – English Version

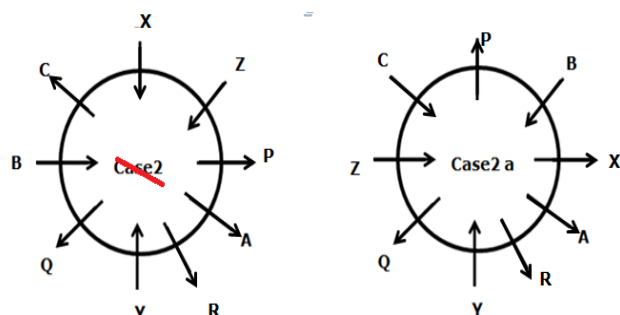

- R faces the same direction as P but neither sits adjacent to B nor Z.
- P sits second to the left of X.

Again we have,

- The number of persons sitting between P and X is the same as the number of persons sitting between Z and P.

From the above condition, case2 gets eliminated. case2a shows the final arrangement.

Directions (31-35):

31) Answer: D

32) Answer: C

33) Answer: B

34) Answer: D

35) Answer: A

Final Arrangement

	Person	Color
March 9	L	Red
March 16	N	Blue
April 9	P	Yellow
April 16	Q	Orange
May 9	M	Green
May 16	O	Pink

We have,

- P is born in the month having an even number of days.
- Only two persons are born between P and the one who likes Pink.

From the above condition, there are two possibilities.

	Case1		Case2	
	Person	Color	Person	Color
March 9				Pink
March 16				
April 9	P			
April 16			P	
May 9				
May 16		Pink		

Again we have,

- The number of persons born before the one who likes Pink is the same as the number of persons born after L.
- The one who likes green is born on an odd numbered date.
- Neither P nor L likes Green.

RRB Clerk Mains 2020 Memory Based Paper – English Version

- The one who likes orange is born immediately before the one who likes Green.

From the above condition, there are three possibilities.

	Case1		Case2		Case2a	
	Person	Color	Person	Color	Person	Color
March 9	L			Pink		Pink
March 16				Orange		
April 9	P			Green		
April 16		Orange	P		P	Orange
May 9		Green				Green
May 16		Pink	L		L	

Again we have,

- The one who likes Red is born immediately before N, who does not like Orange color.
- The number of persons born between N and Q is the same as the number of persons born between Q and the one who likes Pink.
- M neither likes Pink nor Orange.

From the above condition, case 2 gets eliminated.

	Case1		Case2	Case2a		
	Person	Color	Person	Color	Person	Color
March 9	L	Red		Pink	O	Pink
March 16	N			Orange	Q	Red
April 9	P		Q	Green	N	
April 16	Q	Orange	P	Red	P	Orange
May 9	M	Green	N		M	Green
May 16	O	Pink	L		L	

Again we have,

- Neither N nor L likes Yellow.
- One of the persons likes Blue.

From the above condition, case 2a gets eliminated. Case 1 shows the final arrangement.

	Case1		Case2a	
	Person	Color	Person	Color
March 9	L	Red	O	Pink
March 16	N	Blue	Q	Red
April 9	P	Yellow	N	
April 16	Q	Orange	P	Orange
May 9	M	Green	M	Green
May 16	O	Pink	L	

Directions (36-40):

36) Answer: A

37) Answer: C

38) Answer: A

39) Answer: E

40) Answer: A

Final Arrangement

B.sc	BA	B.com
A, K, B	H, E, C	J, G, F, D

We have,

- Both A and K are studying in the same department.
- Both H and J are studying in different departments.
- J is studying with D but not studying in the B.sc department.
- H is neither studying in B.sc nor B.com.
- K is not studying with J.

RRB Clerk Mains 2020 Memory Based Paper – English Version

From the above condition, there are two possibilities.

Case1			Case2		
B.sc	BA	B.com	B.sc	BA	B.com
A, K	H	J, D		H, A, K	J, D

Again we have,

- Both E and C are studying in the same department.
- Both D and F are studying in the same department.
- Neither E nor F is studying with K.
- Both E and J are studying in different departments.
- G is neither studying with H nor in the B.sc department.

Case1			Case2		
B.sc	BA	B.com	B.sc	BA	B.com
A, K	H, E, C	J, G, F, D	E, C	H, A, K	J, G, F, D

Again we have,

- B is neither studying with E nor G.

From the above condition, case 2 gets eliminated. case 1 shows the final arrangement.

Case1			Case2		
B.sc	BA	B.com	B.sc	BA	B.com
A, K, B	H, E, C	J, G, F, D	E, C	H, A, K	J, G, F, D

41) Answer: A

Number of female in rent house in B = $7/15 \times 600 \times 2/5 = 112$

Number of male live in rent house in B = $(600 - 380) - 112 = 108$

Required percentage = $108/600 \times 100 = 18\%$

42) Answer: B

Required percentage = $((660 - 420) - (400 - 260))/(400 - 260) \times 100 = 71.42\%$

43) Answer: A

Number of people live in a rent house in A living in Pucca house = $85/100 \times (400 - 260) = 119$
 Difference = $260 - 119 = 141$

44) Answer: C

Number of people live in rent in F = $2/3 \times (660 - 420) + 3/8 \times (480 - 160) = 280$

Number of people live in own house in F = $110/100 \times 280 = 308$

Total number of people surveyed in F = $308 + 280 = 588$

45) Answer: D

Number of people live in flats, villa and banglow in C among people live in own house = $51:3:2$
 Number of people live in a villa in C among people who live in their own house = $3/56 \times (280)$

RRB Clerk Mains 2020 Memory Based Paper – English Version

= 15

46) Answer: B

Number of people live in residential, commercial and industrial zone = $600 - 100 = 500$

Number of people live in commercial zone = x

Number of people live in residential zone = $x + 60$

If the number of person live in industrial zone is 2, $x + x + 60 + 2 = 500$

$x = 219$

So, the number of people live in residential zone = $219 + 60 = 279$ (maximum possible)

Directions (47-52):

Number of pizzas sold by A on Monday = $5x$

Number of burgers sold by A on Monday = $5x \times$

$120/100 = 6x$

Number of burger sold by B on Monday = $6x$

Number of pizza sold by B on Monday = $6x/2 = 3x$

Number of burger sold by A on Sunday = y

Number of pizza sold by B on Sunday = y

Number of pizza sold by A on Sunday = $y + 40$

Number of pizza sold by A and B on Monday =

$120 \times 2 = 240$

Number of pizza sold by A and B on Sunday =

$84 \times 2 = 168$

$5x + 3x = 240$

$x = 30$

Number of pizzas sold by A on Monday = 5×30

= 150

Number of burgers sold by A on Monday = $5x \times$

$120/100 = 6 \times 30 = 180$

Number of burgers sold by B on Monday = $6 \times$

$30 = 180$

Number of pizzas sold by B on Monday = $6x/2 =$

$3 \times 30 = 90$

$2y + 40 = 168$

$y = 64$

Number of burger sold by A on Sunday = 64

Number of pizza sold by B on Sunday = 64

Number of pizza sold by A on Sunday = $64 + 40 = 104$

47) Answer: A

Number of burger sold by B on Sunday = $64/2 = 32$

Required ratio = 180:32

= 45:8

48) Answer: B

Required percentage = $64/150 \times 100$

= 42.67%

49) Answer: C

Number of veg burgers sold in A on Sunday = x

Number of non-veg burgers sold in A in Sunday

= $x + 28$

$x + x + 28 = 64$

$x = 18$

Number of veg burgers sold by A on Monday =

$100/40 \times 18 = 45$

Required total = $45 + 18 = 63$

50) Answer: D

Required sum = $150 + 180 = 330$

51) Answer: A

RRB Clerk Mains 2020 Memory Based Paper – English Version

Required difference = $150 - 90 = 60$

52) Answer: C

Directions (53-58):

Building	Total	Male	Female
A	80	50	30
B	110	75	35
C	120	55	65
D	100	60	40
E	105	55	50

53) Answer: D

Required average = $(35 + 65 + 50)/3$
 $= 50$

54) Answer: A

Number of male after left in C = $55 - (20/100 * 55) = 44$

Final Number of female in C = $5/4 * 44 = 55$

Number of female left in C = $65 - 55 = 10$

55) Answer: A

Number of person live in F = $120/100 * 80 = 96$

10 flats in which 2 people live in each flat = $10 * 2 = 20$

10 flats in which 3 people live in each flat = $10 * 3 = 30$

5 flats in which 4 people live in each flat = $4 * 5 = 20$

Remaining people = $96 - 20 - 30 - 20 = 26$

Total number of flat = $10 + 10 + 5 + 26 = 51$

56) Answer: B

Required percentage = $(50 - 40)/50 * 100$
 $= 20\%$

57) Answer: B

Ratio of Number of male and female in G = 2:3

Number of male in G = $2/5 * (24/21 * 105) = 48$

58) Answer: C

Number of male in February in A = $(75 + 55)/2 = 65$

Number of female in February in A = $65 + 5 = 70$

Required total = $65 + 70 = 135$

59) Answer: A

$1100 * (100 - x)/100 = 900 * (100 + x)/100$

$1100 - 11x = 900 + 9x$

$20x = 200$

$x = 10$

Profit of the watch = $10/100 * 900 = 90$

60) Answer: C

Salary of Navya = x

EMI = $1/4 * x = x/4$

Monthly bills = $(x - x/4) * 2/5 = 3x/10$

Mother = $(x - x/4) * 3/5 * 3/5 = 27x/100$

$27x/100 - x/4 = 840$

$2x = 84000$

$x = 42000$

61) Answer: B

Investment of A = x

Investment of B = $2x$

RRB Clerk Mains 2020 Memory Based Paper – English Version

Investment of C = $x + 2x = 3x$

Investment period of A = y

Investment period of B = $2y$

Investment period of C = $2y - 6$

$(2x * 2y)/3x * (2y - 6) = 8/3$

$y = 4y - 12$

$y = 4$

Investment period of A = 4 months

62) Answer: A

$A - 6 = B - 18$

$A - B = -12$ -----(1)

$A - 18 = C$

$D - C = 8$

$A - 18 = D - 8$

$A - D = 10$ -----(2)

From (1) and (2)

$-B + D = -22$

$B - D = 22$ years

B is 22 years older than D

63) Answer: B

Amount invested in scheme A = x

Amount invested in scheme B = $x + 500$

Amount received from scheme A = $x + (x * 10 * 2)/100 = 1.2x$

Amount received from scheme B = $(x + 500) * (1 + 10/100)^2$
 $= 1.21x + 605$

$1.21x + 605 - 1.2x = 620$

$x = 1500$

Amount invested in scheme B = $1500 + 500 =$
 Rs.2000

64) Answer: D

Breath = b

Length = $b + 3$

$(b + 3) * b = (b + 3 + 3) * (b - 2)$

$b^2 + 3b = b^2 - 2b + 6b - 12$

$b = 12$

Length = 15

Area = $12 * 15 = 180$

65) Answer: C

$A = 120B * 120B/16000C$

$A = 144B^2/160C$

$A = 9B^2/10$

Therefore, A is decreased by 10%

66) Answer: E

Total capacity = x

$A = x/2$

$B = x/3$

$C = (x/2 + x/3)/3$
 $= 5x/18$

C is filled 5/18 of portion

67) Answer: A

From option,

$16 * 4 = 64$, interchange = 61

Difference = $64 - 61 = 3$

68) Answer: D

$100 * 9/5 = ((100 + x) * (15 - 9)/(12 - 5))$

$210 = 100 + x$

$x = 110$

69) Answer: B

RRB Clerk Mains 2020 Memory Based Paper – English Version

Marked price of Radio = $100x$

SP of radio sold by Ani = $100x * 80/100 * 84/100$
 $= 67.2x$

SP of radio sold by Bindu = $100x * 70/100 * 94/100$
 $= 65.8x$

Compare the selling price of radio sold by Bindu and Ani, Bindu offers better discount than Ani.

70) Answer: A

$14.998 * 6.02 * ? = 1979$

$90 * ? = 1980$

$? = 22$

71) Answer: B

$\sqrt{?} * 8.01 + 4.99\% \text{ of } 239 = 52$

$\sqrt{?} * 8 + 12 = 52$

$\sqrt{?} = 5$

$? = 25$

72) Answer: C

$144.031 + 1449.01 + 39.06 = ?$

$? = 1632$

73) Answer: E

$(80\% \text{ of } 501 - 40.09)/6.01 = ?$

$360/6 = ?$

$? = 60$

74) Answer: B

$(41.99 + 98.05)/(12.01 - 4.99) = ?$

$20 = ?$

75) Answer: A

$448/3 + 11.99 * 4.01 = ?$

$149 + 48 = ?$

$? = 197$

76) Answer: B

$1000 - 2^3 = 992$

$992 - 3^3 = 965$

$965 - 4^3 = 901$

$901 - 5^3 = 776$

$776 - 6^3 = 560$

$560 - 7^3 = 217$

77) Answer: A

Alternative number difference is 6

$56 - 6 = 50$

$50 - 6 = 44$

$44 - 6 = 38$

$70 - 6 = 64$

$64 - 6 = 58$

78) Answer: C

$5 + 11 = 16$

$16 + 13 = 29$

$29 + 17 = 46$

$46 + 19 = 65$

$65 + 23 = 88$

$88 + 29 = 117$

79) Answer: A

$10 * 0.5 - 0.5 = 4.5$

$4.5 * 1 - 1 = 3.5$

$3.5 * 2 - 2 = 5$

$5 * 4 - 4 = 16$

$16 * 8 - 8 = 120$

$120 * 16 - 16 = 1904$

RRB Clerk Mains 2020 Memory Based Paper – English Version

80) Answer: C

$$6 * 3 - 1 = 17$$

$$17 * 3 - 1 = 50$$

$$50 * 3 - 1 = 149$$

$$149 * 3 - 1 = 446$$

$$446 * 3 - 1 = 1337$$

$$1337 * 3 - 1 = 4010$$

Special Bundle PDF Course for SBI Clerk & IBPS RRB PO Mains Exams 2021

Course Duration: **50 days**
No. of Ques: **5000**

Language:
English & Hindi

Exact Exam Level
